I received your letter on 09/10/2019 requesting public record request for a list of all deaths that occurred while someone was in custody of the City of Hammond. Hammond Police Department jail does not house any felonies. The City of Hammond has not had a death while a person was in custody for the period that was being requested. (2014-2019). Any further request should be obtained by going to the city of Hammond website at city of Hammond.org. Once on the website go to administration and on the bottom you will see public record request form that can be filled out

Thank ,

Lt C Miller
