RE:

"Basic Jail Guidelines" Monitoring Report

See the attached monitoring report regarding the Basic Jail Guidelines (BJG) annual inspection that was conducted at Caldwell Correctional Center on June 15, 2023.

On the day of inspection the total inmate count was 613 inmates present which exceeds the facility rated capacity by 13 inmates. This was addressed with Warden Wyles. Since the completion of Caldwell Detention Center annual BJG audit the facility has been compliant with their rated capacity. DPS&C encourages compliance with BJG I-C-006 "Rated Capacity", as noted in the Fire Marshal report.

During this reporting period there were several months that Caldwell Detention Center did not meet the required 5% of DOC inmate population to be drug tested. DPS&C encourages full compliance with BJG II-A-018 "Offender Drug Testing"

A review of Maintenance and Culinary inventory indicated a good check-out system. However, several items needed to be engraved with their assigned number. This was addressed with Lt. Fredrick on day of inspection. DPS&C would like to encourage full compliance with BJG II-D-001 "Key, Tool, and Utensil Control."

At this time DPS&C will continue with annual monitoring visits. BJG Team Leader Col. James Arnold is available for any training or assistance Caldwell Detention Center may need.

Thank you for your support of the BJG process.
